Extension Description

Payment Fees extension allows you to charge your customer for using specific payment methods. Fee cost can be set to a flat rate or a percent of order grand total. You can also create more than one fee per payment method. In this case, you'll be able to set both percent and fixed fee for one payment method (for example, \$0.45 + 3,5% for PayPal).

Applied fees are being added to order and invoice totals. They also will be visible in emails and pdf print-outs.

Installation Guide

- 1 Disable the Compilation Mode (if enabled)
- 2 Enable Magento cache if disabled
- 3 Log out from Magento Admin panel if you are logged in
- 4 Unpack the contents of the 'extension' folder from the package file purchased from MagestyApps to your Magento root folder
- 5 Log into Magento Admin Panel
- 6 Go to 'System > Cache Management' section, select 'Refresh' under 'All Cache' drop-down menu and press 'Save Cache Settings'
- 7 You can run the Compilation mode back if necessary (not enable but run it)
- 8 Now go to 'System > Configuration > MagestyApps Extensions > Payment Fees' section. If you see the extension's settings then you are done.

NOTE: MagestyApps provides absolutely free professional installation of this extension. So if you have any issue with its installation or want us to install it to your website then please contact us via email: alex@magestyapps.com

Extension Usage

Global Configuration

Payment Fees

General Settings		
Enable	<input type="text" value="Yes"/>	[WEBSITE]
Label for Totals	<input type="text" value="Additional Fees"/>	[WEBSITE]
Payment Method Fee Template	<input type="text" value="(Payment Fee: [fee])"/> <small>▲ Configure the way to show fee rate near payment method label. For example: (Payment Fee [fee]). Leave empty to hide fee information.</small>	[WEBSITE]

Tax Settings		
Calculate Tax for Payment Fees	<input type="text" value="No"/>	[WEBSITE]
Tax Class for Payment Fees	<input type="text" value="None"/>	[WEBSITE]
Display Payment Fees	<input type="text" value="Including Tax"/>	[WEBSITE]

General settings

Enable - Turn the extension On/Off

Label for Totals - This label will be shown for the applied payment fee in order totals

Payment Method Fee Template - Here you can set the text to be shown near payment methods on checkout page.

Refund Payment Fees - If this setting is “Yes” then the amount of applied payment fee will be added to Credit Memo’s totals.

Tax settings

Calculate Tax for Payment Fees - If “No” then payment fee will be calculated based on Grand Total Incl. Tax.

If “Yes” then it will be calculated base on Grand Total Excl. Tax. And payment fee tax will be calculated separately based on the fee’s tax class.

Tax Class for Payment Fees - Here you can set the tax class which should be applied to payment fees

Display Payment Fees - With this setting you can display fees Excluding and/or Including Tax

Manage Payment Fees

To view the list of all existing payment fees in your admin panel go to MagestyApps > Payment Fees > Manage Payment Fees.

Magento Admin Panel | Logged in as demo | Wednesday, October 14, 2015 | Log Out

Dashboard | Sales | Catalog | Customers | Promotions | **MagestyApps** | System | Get help for this page

Payment Fees | Manage Payment Fees | Settings | Add New Fee

Page 1 of 1 pages | View 20 per page | Total 2 records found | Reset Filter | Search

Fee Name	Amount to Charge	Status
Offline Payment fee	5%	Enabled
PayPal fee	3.5%	Enabled

To create a new payment fee press “Add New Fee” button in top right corner. If you want to edit one of existing fees then just click on the row with the necessary fee.

“General Information” tab:

Fee Name - Here you can set the payment fee name.

Payment Methods - Select the payment method(s) which the fee should be applied to.

Store Views - Select Store Views where you want to show and apply the payment fee.

Customer Groups - Select customer groups for which payment fee should be applied.

Amount to Charge - Set the amount of the payment fee to be charged.

Amount Type - Select either "Fixed" or "Percent" amount type.

Status - Enable/Disable the payment fee.

Edit Payment Fee 'PayPal fee'

“Conditions” tab:

Edit Payment Fee 'PayPal fee'

Apply the rule only to cart items matching the following conditions (leave blank for all items)

If **ALL** of these conditions are **TRUE** :

Subtotal **less than 500** ❌

If an item is **FOUND** in the cart with **ALL** of these conditions true: ❌

Quantity in cart **equals or greater than 2** ❌

Please choose a condition to add... ⚡

+

Here you can configure conditions for applying the payment fee. This means that the payment fee will be applied only in case all the conditions are satisfied. It works in the same way as standard magento shopping cart price rules.

Support

MagestyApps provides FREE support for all its products. If you have any questions or suggestions regarding our extensions or our company then feel free to contact us via email alex@magestyapps.com
